

2023 Summer Internships

SML Good Neighbors offers a nine (9) week (May 28, 2023 - July 27, 2023), summer internship working with children who are rising 1st through 6th graders in summer enrichment programs. The children are from families with limited resources. Our summer teaching staff (interns) will lead the program with the support and assistance of the Program Coordinator, the Site Director, Executive Director, public school teachers and dozens of volunteers. Lodging and meal/gasoline support are provided as well as a \$2,500 stipend for first year interns (stipend increases for returning interns and lead intern). The program is located in the Smith Mountain Lake community near Moneta, Virginia.

We currently have positions for up to eleven (11) interns. Interns live together in provided housing and one of our primary objectives is to provide a vocational exploration experience for the interns. Both male and female applicants are sought. **All college majors are welcome.** The interns provide very powerful role models for the children we serve. See our website: www.smlgoodneighbors.org for more information about the program and the internship.

Internship applications can be completed online on our website. You can also communicate directly with Lisa Lietz, Executive Director, if you need assistance or have questions: email llietz@smlgoodneighbors.org or call 540-585-4912.

More information and applications are available on the website: www.smlgoodneighbors.org beginning November 1, 2022.

Interviews will be conducted throughout the application period and completed by the end of February. All applicants will be notified of our final decisions by mid-late March. We encourage applicants to apply early, as positions may be offered during the application period.
