

2026 Summer Teaching Staff Internships

SML Good Neighbors offers a nine (9) week (May 24, 2026 - July 24, 2026 - Please note that dates may change slightly depending on area schools' schedules), summer internship working with children who are rising 1st through 6th graders in summer enrichment day camp programs. The majority of the children are from families with limited resources. Our summer teaching staff (interns) will lead the program with the support and assistance of the Program Coordinator, the Lead Intern, Executive Director, public school teachers and dozens of volunteers. Lodging and meal/gasoline support are provided as well as a \$2,750 stipend for first year interns (stipend increases for returning interns and lead intern). The program is located in the Smith Mountain Lake community near Moneta, Virginia.

We currently have positions for up to nine (9) new interns. Interns live together in provided housing and one of our primary objectives is to provide a vocational exploration experience for the interns. Both male and female applicants are sought. **All college majors are welcome** (however this is an ideal internship for education majors). The interns provide very powerful role models for the children we serve. See our website: www.smlgoodneighbors.org for more information about the program and the internship. **Internship applications can be completed online** on our website. You can also communicate directly with Lisa Lietz, Executive Director, if you need assistance or have questions: email llietz@smlgoodneighbors.org or call 540-585-4912.

Information and applications will be available on the website: www.smlgoodneighbors.org beginning November 1, 2025.

Interviews will be conducted throughout the application period and completed by the end of March. All applicants will be notified of our final decisions by April. We encourage applicants to apply early, as positions are offered during the application period.
